Filtration Product

HYDRO CARE TRADING W.L.L. established in 2007. HYDRO CARE TRADING W.L.L. is a trusted name, known for its quality products and services. Customer Satisfaction is prime importance to us. The Customer loyalty that we enjoy is the proof of our acceptance by the ever growing consumer base.

With a well-organized technical center and the most modern facilities, a team of well trained technicians, 24 hrs onsite mobile workshop, HYDRO CARE is an essential guarantor of productivity for all its customers.

HYDRO CARE provides a comprehensive after sale technical support and service.

We assure better performance and cost savings for our customers.

We aim to bring service and quality to the highest level, to industries such as construction, Oil exploration, Mining, Manufacturing, Transport companies, Dewatering companies and General industries.

With HYDRO CARE, Customer satisfaction is no more a challenge it is a certainty.

SAKURA filters are manufactured by the ADR Group of Companies, a group that has been providing automotive and industrial parts solution, for the OEM/OES customers, for more than 40 years. In the filtration business, Sakura Filters offers the largest range of applications of more than 6,000 part numbers. It covers Automotive, Commercial, Heavy Equipment, Marines and Industrial sectors. Now, SAKURA is one of the largest range of Heavy Duty and Commercial Products in the SAKURA brand, including American, European and Asian lines. The Sakura Filters are designed and manufactured in accordance to SAE, JIS, and DIN standards, to meet the efficiency, life expectancy, vibration, impulse, and other criterias, for best quality assurance.

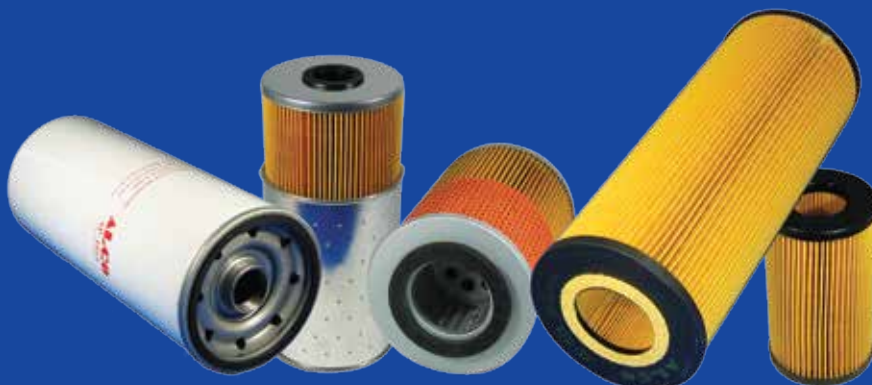

FILTREC has been committed to producing the most complete line of hydraulic filters and filter elements available in the market. Quality, service and flexibility have been the hall marks of our success in our ability to address our ever-changing market.

- ISO 3723 : End load Test verification.
- ISO 23181 : Determination of resistance to flow fatigue using high viscosity fluid.
- ISO 3968 : Pressure Drop vs. Flow and By-Pass Valves setting.
- ISO 4405 : Determination of particulate contamination by Gravimetric Method.
- ISO 4021 : Extraction of fluid samples from lines of an operating system.
- ISO 4406 e
- NAS 1638 : Automatic Bottle sampler – Method for coding the level of contamination by solid particles.
- ISO 4407 : Determination of particulate contamination by the counting method using an optical microscope.

- ISO 3968 : Evaluation of differential pressure vs flow characteristic.
- ISO 2942 : Filter Fabrication Integrity – Bubble Point Test.
- NFPA T3.10.17
- ISO 10771 : Pressure Fatigue Test.
- ISO 2941 : Verification of collapse/burst pressure rating
- ISO 16889 : Multipass Test.
- ISO 2943 : Compatibility Test.

ALCO produces filters for cars, trucks, earth moving equipment and stationary engines. The range covers more than 3000 different types of filters with more than 200 new types added yearly. ALCO Filters is a trusted name in more than 55 countries throughout Europe, Africa and the Middle East.

HYDRO CARE has an ever growing network highly specialized service points, Mobile Service, Vans and on site workshops dedicate to serve our customers.

HYDRO CARE achieved excellence in providing our customers with top quality hydraulic components and technical services.

24 Hrs ON SITE CRIMPING SERVICE

We Make high pressure hoses for all types of applications in oil and gas Industry, Marine, Transport and construction industry.

PRODUCTS

Pressure hydraulics

Hoses assemblies, Hoses and fitting in both C.S. and S.S, Thermoplastic hose 100R7 & R8, Quick couplings, Adaptors, Bite ring connectors, Valves, Flanges, Gauges, Tools, Protection and safety accessories.

Tube

Seamless tube in both C.S and S.S, Fittings and clamps, Bending, Flaring and Pre-Assembly equipment.

Water Cleaning and Blasting

Hoses and Fittings, Guns and Spray Lances, Nozzles and Accessories.

Industrial Applications

Steel, Stainless, Rubber Hoses, Teflon Hoses, Camlock Fittings, Pipes and Clamps.

Hydraulic Accessories

Seals, Flow control valves, Ball valves, Check valves, etc...

WHY Hydro Care

Comprehensive Customer Care

Service on site through mobile vans. Service on site through mobile workshops for remote large customer locations

Technical Support

Service offered to all our customers driven by know-how and experience. Skilled staff with a problem solving approach tailored solutions to suit individual needs.

Quality Means Durability

Hydro Care ranges complies with at least one of the strictest international quality norms, to ensure durability in all applications.

Expert Solutions

Hydro Care offers a complete range of products and customized solutions for special applications quality products and professional advice ability to offer and develop innovative services.

Added Values

Cleaning during and after hose assembly
Flexible delivery options.
